

GREEN FLASH PRESENTATIONS

Ruth Gustafson

- tinyurl – <http://tinyurl.com>. Shorten long urls and make them short and easy to send to patrons.
- SurveyMonkey – <http://www.surveymonkey.com>. This can be used for more than just surveys – event registrations, for example. The free version limits numbers but is adequate for many purposes.

Marcel Hanneman

Eyeplorer – <http://www.eyeplorer.com>. A graphical knowledge engine. You can register for more functionality.

Elisabeth Baltzinger

Musee Oceanographique – <http://www.oceano.mc> in Monaco; one in Monaco, one in Paris. Holds ~29,000 books, 3,500 serial titles and many expedition reports. OPAC is now online.

Janet Webster

- Use of Kindles
- Library a la carte – <http://alacarte.library.oregonstate.edu>. Open Source web publishing tool for librarians. Helps you create modules, rss feeds, etc.

Marie Pascale Baligand

Cemagref – <http://www.cemagref.fr/English>. Agricultural and environmental engineering research.

Sally Taylor

Open Access Week – October 19-23, 2009.; <http://www.openaccessweek.org>. At the University of British Columbia they are doing three activities to promote the week.

Sue Stover

Mote Laboratory's book budget was cut to \$0 last year so they needed to find creative ways to acquire books:

- Books With Bites: 15 authors in three rooms doing book signings accompanied by wine and cheese
- Bunco for Books – a dice game
- Holiday book sale in the library
- Worked with a small bookstore in town

Vielka Chang-Yau

Exchange program by the Smithsonian Tropical Research Institute

Amy Butros

The University of California is a fully participating library in the Google Books Project. In January 2009 the Scripps Institution of Oceanography began shipping its collection to

Google for digitization. As a result these texts will be searchable, with limited page viewing of in-copyright materials. These, however, may be available via Interlibrary Loan.

Sue Ann Gardner

- University of Nebraska-Lincoln Libraries' institutional repository <http://digitalcommons.unl.edu>. First founded in 2005, it now holds over 37,000 documents.
- You can search more than 30 million digital items in 1,150 repositories at <http://www.scientificcommons.org>.
- OpenDOAR – the Directory of Open Access Repositories: <http://www.opendoar.org/search.php>.
- Digital Commons - over 100 institutions, with over 250,000 items: <http://researchnow.bepress.com>.

Leonora Offendahl

IAMSLIC is now on Twitter; hashtag for the conference is #IAMSLIC2009.
